Privacy Policy

Last Updated: January 19, 2026

Effective Date: January 19, 2026

Delta Apps, LLC ("Ripple," "we," "us," or "our") is committed to protecting your privacy. This Privacy Policy explains how we collect, use, and share information when you use the Ripple platform (the "Service").

1. Data Collection and Usage

To provide our automated roundup service, we collect the following categories of information:

- **Account Information:** Your name, email address, and account preferences.
- **Financial Metadata:** Through our integration with **Stripe Financial Connections**, we access read-only transaction data (amounts and dates) from your linked financial institution. Ripple does not store your bank login credentials. The data we access is solely to calculate your roundups.
- **Payment Information:** Payment tokens and transaction history facilitated via **Stripe Connect**. We do not store your bank login credentials or full credit card numbers on our servers.

2. How We Use Your Data

We use your information solely to:

- **Calculate Roundups:** Determine the difference between your transaction totals and your designated roundup threshold.
- **Communicate grant recommendations to our Giving Partner on your behalf.**
- **Facilitate Donations:** Orchestrate the transfer of funds from your account to our Giving Partner via Stripe, who then disperses those funds to your chosen 501(c)(3) charity.
- **Recover Technical Costs:** Process the $3.00 setup fee (subject to change) and subsequent $0.30 maintenance fees (subject to change) as disclosed in our Terms and Conditions.
- **Security & Fraud Prevention:** Verify your identity and monitor for suspicious activity to protect your account and our Giving Partner.

3. Data Sharing and Third Parties

We do not sell your personal or financial data. We share information only as necessary to provide the Service:

- **Stripe, Inc.:** Our primary payment processor and financial data aggregator. Your use of Stripe is subject to the Stripe Privacy Policy.

- **Disbursement Partners:** To facilitate your donations, we share your name and donation preferences with our 501(c)(3) nonprofit partner (our "Giving Partner," e.g., Every.org or Pledgeling).
- **Legal Compliance:** We may disclose information if required by law or to respond to valid legal processes from the State of Utah or other relevant jurisdictions.
- **No Sale of Data:** We do not sell, rent, or trade your personal or financial information to third parties for marketing purposes.

4. Tax Substantiation

- **Tax Receipts:** Official tax receipts are issued by our Giving Partner, not by Delta Apps, LLC or Ripple. We share your email address with the Giving Partner so they can deliver these legal documents to you.

5. Your Rights and Choices

- **Access & Correction:** You may review or update your account information at any time within the Ripple app settings.
- **Data Deletion:** You may request the deletion of your account and personal data. Note that certain transaction records may be retained for up to 7 years to comply with financial and tax regulations.
- **Disconnecting Accounts:** You can disconnect your bank account at any time. This stops the sharing of *new* transaction data but does not delete historically processed data required for audit trails. Reconnecting a bank account, or connecting an additional bank account, will incur the $3.00 setup fee (subject to change). Connecting credit cards does not incur the setup fee.
- **Pausing Roundups and Donations:** You can turn roundups on and off at any time in your account settings, which will stop the monthly API maintenance fee. You may also turn donations on and off at any time, which will continue performing roundups but skip processing the donation.

5. Data Security

All data is encrypted using industry-standard protocols. By using Stripe Financial Connections, your bank credentials never touch our servers; they are handled directly by Stripe's PCI-compliant infrastructure. We utilize Stripe and Supabase to ensure your information is handled within PCI-compliant environments.

6. Geographic Restrictions

Ripple is currently intended for residents of the United States, with a primary focus on the **State of Utah**. We utilize zip-code level geofencing to comply with state-specific regulations. Residents of California, Hawaii, and New York are currently excluded from service.

7. Changes to This Policy

We may update this policy to reflect changes in our service or legal obligations. We will notify you of any material changes via the email address associated with your account.

8. Contact Information
